Natalia Pandolfi

QA Engineer

Cotia, SP, Brazil · nataliaspandolfi@gmail.com · linkedin.com/in/nat-pandolfi · github.com/Padawolf

SUMMARY

QA Engineer experienced in web, mobile and API test automation, performance testing and integrating automated suites into CI/CD pipelines. I join projects from discovery onwards, working with Product Owners and engineering to define requirements, acceptance criteria and test scenarios with BDD and Shift Left. I have also built AI knowledge bases that generate infrastructure tests and set up test automation repositories.

EXPERIENCE

QA Engineer · Zup Innovation — Dec 2022 – present

- Lead web, mobile and API test automation for large-scale, high-traffic systems.
- Plan and run performance and load tests.
- Integrate automated test suites into CI/CD pipelines.
- Work with POs and engineering from discovery, defining requirements, acceptance criteria and test scenarios.

Test Specialist · IBM — Jun 2022 – Dec 2022

- Defined and executed test strategies for web, mobile and API-driven applications.
- Built and maintained automated suites for continuous integration.
- Promoted QA best practices, BDD and quality standards across teams.

QA Analyst · Keeggo — Jan 2022 – Jun 2022

- Ran manual, exploratory and automated tests across several platforms.
- Wrote test scenarios from business rules and acceptance criteria.
- Worked with developers to find and fix defects.

PROJECTS

AI-generated infrastructure tests. Knowledge base that reads infrastructure-as-code (IaC) projects and generates automated tests that validate resources such as S3 buckets, access policies and authorization rules.

Test automation repositories from APIs. Knowledge base that reads APIs and helps build the skeleton of test automation repositories.

Personal website. Introduction written in Gherkin (Portuguese and English), built with Astro and React. E2E tests with Playwright + BDD, accessibility checks with axe-core and deployment via GitHub Actions.

SKILLS

Languages	Java, Python, JavaScript, TypeScript
Web	Playwright, Selenium, Cypress, Robot Framework
Mobile and API	Appium, RestAssured
Performance and accessibility	k6, axe-core
BDD	Gherkin, Cucumber
Practices	CI/CD, Shift Left, acceptance criteria, Scrum, Kanban
Tools	Git, Jira
Testing types	manual, exploratory, regression, API, web, mobile, performance and load

EDUCATION

Postgraduate Certificate in Software Architecture · FIAP — 2024 – 2025
Associate Degree in Systems Analysis and Development · Impacta Tecnologia — 2018 – 2020

CERTIFICATIONS

ISTQB CTFL – Certified Tester Foundation Level · BSTQB — 2023
DevOps Essentials · CertiProf — 2020
Scrum Foundation Professional Certificate · CertiProf — 2020

LANGUAGES

Portuguese (native) · English (advanced, professional working proficiency)
